COURSE DESCRIPTION

(complete overview shown on website)

GYMNASTICS

Group Gymnastics classes will introduce basic tumbling and flexibility. Gymnastics teaches basic to advanced skills in tumbling, trampoline and acrobatics. Students are placed in groups of up to 10 students based on level and a coach teaches the next skill in a series of skills and disciplines.

SYLLABUS/OUTLINE: Weekly Classes vary by skill level, coaches available, and progress throughout the semester. A common class outline would include a 10 minute warm up, 5 mins of large group skill acquisition, three skill rotations, and 5 minutes of conditioning.

SWIMMING

Red Cross Learn to Swim Levels

Level 1: *Introduction to water skills.* Orient participants to the aquatic environment and help them gain basic aquatic skills. Help participants begin to develop positive attitudes and safe practices around water

Level 2: *Fundamental Aquatic Skills.* Build on the basic aquatic skills and water safety skills and concepts learned in Level 1.

Level 3: Stroke Development. Build on the skills learned in Level 1 & 2 to help participants achieve basic water competency in a pool environment

Level 4: Stroke Improvement. Improve participants' proficiency in performing the swimming strokes that were introduced in Level 3

SYLLABUS/OUTLINE: Each week varies as the teacher develops their own block plans for the courses each semester. This is why it is important to attend all of your specifically arranged classes. If you miss days or make-up classes on different days with different teachers you will likely not cover all of the required course content in order to pass successfully. However, it is important to note that sometimes children who attend all of their classes with the same instructor still might not pass, either because they need more time to develop specific techniques or improve on endurance or stamina in order to be ready for the next level. Students should not become discouraged if it takes more than several times to complete a level, especially if they are young. We encourage students in that scenario to work towards earning badges that are available to view on the last page of the Learn to Swim Progress Booklets or viewable on the Red Cross Swim App .

COURSE OBJECTIVES AND APPROXIMATE TARGET DATES

Each student will have different course objectives depending on the level they are working on. Each student will receive a progress report that includes all of the content covered in the course as well as their exit assessments on their final day of class.

STUDENT ASSESSMENT - what will be used to evaluate student progress and/or end of semester pass/fail status?

All classes abide by the following:

- 1) Student agrees to attend at least 80% of class sessions/lessons offered. Attendance is kept online and tracked by Partnership staff. Failure to meet 80% or be on track to meet 80% may result in program discontinuation.
- 2) The Partnership Student Assessment or Performance Form is filled out by the teacher and turned in to Partnership staff. The link to this form is found on the web page for this class. Failing marks for lack of participation, behavior issues, practice time, etc. may result in program discontinuation.
